

Join SCOE Parents today!!!

Join our first ever SCOE parents group! The group is still in the creation stage, but our hope is that it will be a group to provide many services to students, parents, and teachers such as: advocacy, fundraising, social gatherings, guest speakers, newsletters, etc. In addition we want to provide information & links on our new website for parents to find services and read literature to help their children. Parent discussion boards can also be a part of the website which could be a wonderful resource as some of the best referrals are made parent-to-parent.

A committee of parents will soon need to make decisions about the direction of the group and the website. If you are interested in serving on the committee, let us know when you join the parent group on our website!

Visit our new website at www.scoeparents.org and complete the "join parent group" page. Indicate if you want to be a member, or both a member and serve on the committee, and if you need communication in Spanish. For any questions call:

Cathy Van Dalen at (707) 664-1237
