

AREA BOARD 9 AND THE AUTISM SOCIETY OF SANTA BARBARA INVITES YOU TO JOIN AN INFORMATIVE WEBINAR

Serving the Counties of Ventura, Santa Barbara, and San Luis Obispo

Understanding Psycho-Educational Assessments

This is a webinar on Special Education assessments for parents with children 3-22 years of age to provide tools to effectively advocate for their child's education. A webinar is a live training via the internet where you participate online and over the phone. There are 20 spaces available, and if you wish to attend you must RSVP as soon as possible. Two days before the training you will be provided with the URL and the conference call number via email.

• Dr Ann Simun has been working professionally with children with learning and behavioral challenges since 1989. She is a licensed psychologist (PSY20113), with a specialization in neuropsychology. Dr Simun specializes in complex diagnostic cases. She is especially effective in cases

involving IEPs and public schools due to her extensive experience working in public schools. She works closely with parents, schools, and attorneys/advocates to help create appropriate, effective and individualized programs for children with special needs. Dr. Simun completed her PsyD at

Pepperdine University. Dr Simun has worked as a school psychologist for over 10 years. She has been named as an independent expert in psychological assessment in multiple states and jurisdictions. She has given presentations at national conferences on assessment of children and other topics.
