

Matrix Mighty Milers

*is a running program for children with special needs,
and their typically developing peers.*

Who is Matrix?

Matrix Parent Network & Resource Center is a 501 C 3 non profit organization. We provide families of children with special needs with resources and help them access the systems that serve them. We also provide inclusive programs and activities in our communities for children with special needs.

What is Matrix Mighty Milers?

Matrix Mighty Milers is an inclusive running program for children of all ages and all different abilities. This is an opportunity for children with special needs to participate on a team with their typically developing peers. After the 10 week summer training program, each child will run in The Santa Rosa Marathon 5K race on August 25th.

Every child, regardless of their ability, should have the opportunity to set, train for, and reach a goal amongst their typically developing peers. Often, kids with special needs do not have the opportunities to be included in group activities.

How Can You Help?

In order to be able to offer this FREE program to all kids in our community, we rely on community partners and sponsorships. We have three different levels of sponsorships, and are open to creating a sponsorship level that works specifically for you! If you would like to support the Matrix Mighty Milers in any way which is not outlined here, please contact Kristie Anderson at 707.889.6231, or email kristiea@matrixparents.org.
