Steve Silberman is an award-winning science writer, and the author of NeuroTribes:

The Legacy of Autism and the Future of Neurodiversity (Avery 2015), which Oliver Sacks called a “sweeping and penetrating history... presented with a rare sympathy and sensitivity.”

*“Required reading for every parent, teacher, therapist, and person who wants to know more about autism”*

*–Parents.com*

**Great Minds Don't Always Think ALike**
