Effective Advocacy

Working with Your Child’s IEP Team

as School Reopens

www.matrixparents.org
Matrix Parent Network

We **empower** families of children with special needs to successfully understand and access the systems that serve them.

We want **you** to become successful advocates and role models for your children.
Who Are We?

Introductions
Things to remember as we begin:

- Self-care is key at this time and all the time!
- Did you observe and make notes of present levels (academics, speech, OT, social interactions, behavior)?
- Did you see progression or regression during distance learning?
- You can call a meeting (IEP or other).
- Be ready to collaborate with team: smaller meetings with teacher, therapists, psych – maybe don’t wait to get the whole team together for an IEP.
You Will Leave Here Knowing:

• What does advocacy look like during distance learning, or the hybrid model that many districts are opening with?

• Skills and techniques to use before, during, and after your next IEP, whether it is in-person or virtual.

• Why collaboration is THE KEY to successful advocacy at all times.
What is an Advocate?

An Advocate is someone who pleads the cause of another or promotes the interests of a cause or group.

You advocate every day!

Have you ever:

• Met with your child’s teacher about any issue?
• Questioned a medical professional on issues concerning yourself or your child?

If you have done these things, you already are an Advocate
What is your Biggest Challenge Right Now?

TURN & TALK

Wow!

Really?
Skills & Strategies
Skills & Strategies

1. Use your understanding of your child.
2. Learn about the systems and key players.
3. Stay current on special education as schools reopen.
4. Try to stay organized.
5. Clear and compassionate communication is important.
6. Recognize perspective (yours and others).
7. Solve problems creatively to resolve disagreements.
Skills and Strategies 1: Use Your Understanding of Your Child

You know your child best!
1. Use Your Understanding of Your Child

Your experiences are valuable and may be used to improve things – but only if you share with your team:

- You know when something is or isn’t working.
- You have ideas about how to make things better.

If you can, observe, learn and communicate:

- How does the disability affects various aspects of life?
- How does the disability manifest itself in your own child?
1. Use Your Understanding of Your Child

If distance learning is still part of the curriculum:

- Focus on what can be provided right now.
- Moderate your expectations.
- Use the services and resources that are helpful and convenient.
- Matrix resources are available.
- Remember to communicate your thoughts, concerns and observations to your team.

MATRIX RESOURCES

- Helpline 800-578-2592
- Website
- Training
- Training online

www.matrixparents.org
1. Use Your Understanding of Your Child

During distance learning:

- Try keeping a journal of what is working and what's not working.
- You could take videos of your child learning to illustrate what's working and what's not.
- Email teachers and the IEP team about what's working and what's not working.
- Observing progress on goals may help with receiving services to remediate learning losses due to change of service delivery during COVID-19.
1. Use Your Understanding of Your Child

Your observations are important!

- You can help teachers understand how well your student is “accessing the curriculum” by observing and recording how they do during distance learning sessions, how well they understand instructions, and how successful they are at completing homework independently. The examples on the next two slides show the kinds of observations you might record.

- If you have concerns about a particular IEP goal your child is working on, talk with the teacher to get specifics about how progress on that goal is being monitored.
Daily (or weekly) Observation Log: Homework/Distance learning observations:

Date: **Tues, Sept. 15**

Online class: Was Sam able to sit and focus on the class being delivered on line? **Yes/No**

If Yes, how long did Sam focus on the class?  **10** minute of a  **40** minute class

How many times did I have to redirect him during the class? (Tell him to focus, tell him to sit down, point to the screen, etc.)  **8** times.

Did Sam interact with the teacher or other classmates? **Yes/No**

If so, how? Asked questions? Answered questions? Made suggestions? Joked with classmates?

*Sam attempted to get other students' attention by making faces and gesturing.*

Was Sam able to complete classwork or homework independently? **Yes/No**

Did Sam understand the class work or homework he was being given? **Yes/No**

If no, check one:

- I had to spend a few minutes reviewing the directions with him
- I had to read and explain the directions
- I had to completely review the concepts needed to do the work

Did Sam complete the class work/homework assignment? **Yes/No**

If yes, how long did it take:  **90** minutes

If no,

Estimate what percent of the work was done:  **30**%

How long did Sam work to attempt his homework?  **20** minutes

Other observations

*Sam threw down his books and broke his pencil when asked to start his assignment. After 15 minutes of scolding, and reminding him he could go outside afterwards, he agreed to do the work if I sat with him. After he got started, he seemed to enjoy the word search worksheets and was proud of how many words he could recognize.*

---

Daily (or weekly) Observation Log: Homework/Distance learning observations:

Date: **Tues, Sept. 15**

On line class: Was Suzi able to sit and focus on the class being delivered on line? **Yes/No**

If Yes, how long did Suzi focus on the class?  **30** minute of a  **40** minute class

How many times did I have to redirect her during the class?  **2** times.

Did Suzi interact with the teacher or other classmates? **Yes/No**

If so, how? Asked questions? Answered questions? Made suggestions? Joked with classmates?

*Suzi refused to speak when the teacher called on her.*

Was Suzi able to complete classwork or homework independently? **Yes/No**

Did Suzi understand the class work or homework she was being given? **Yes/No**

If no, check one:

- I had to spend a few minutes reviewing the directions with her.
- I had to read and explain the directions.
- I had to completely review the concepts needed to do the work.

Did Suzi complete the class work/homework assignment? **Yes/No**

If yes, how long did it take:  **90** minutes

If no,

Estimate what percent of the work was done:  **30**%

How long did Suzi work to attempt her homework?  **20** minutes

Other observations

*Suzi broke down in tears three time while working on her class assignment, however, she refused to take a break and kept working even though she seemed quite agitated and upset about it.*
**USING AN ACTIVITY MATRIX TO INFUSE IEP GOALS THROUGHOUT THE DAY**

1. List the student's goal areas along the top of the matrix.
2. List the daily schedule of activities along the left side of the matrix, including all routines throughout the day (lunch, etc.)
3. In each corresponding cell write how the student will be taught and/or practice each skill during the daily activities and which EBP for ASD will be used.

<table>

County Mental Health & Human Services link

- Sonoma
- Marin
- Napa
- Solano
2. Systems and Key Players

In summary:

• You can reach out to your child’s case manager for every agency you interact with.

• You can reach out to the director or decision maker for each organization that supports your child.
Skills and Strategies 3:
Stay Current on Special Education

www.matrixparents.org
3. Stay Current on Special Education

Matrix Website and Matrix Newsletters

• Your school website
• Your SELPA (see links on previous slide)
• The School & College Legal Services (SCLS) updates
• California Department of Education COVID-19 Guidance:
  Coronavirus Response and School Reopening Guidance
  Weekly COVID-19 updates from State Superintendent of Ed.
  Special Education Guidance for COVID-19
  Weekly newsletter registration – email to join-covid19-update@mlist.cde.ca.gov
• National disability groups (CHADD, NAMI, Autism Speaks, etc.)
3. Stay Current on Special Education

- Service delivery may not be back to normal, depending on your school
- “Compensatory education” vs. “learning loss and remediation under COVID-19”
3. Stay Current on Special Education

Language Matters

• Compensatory education is not part of IDEA, and is awarded court when FAPE has been denied.

• Compensatory education is not for regression due to COVID-19.

• Chances are many students have regressed.

• Use the language “learning loss and remediation under COVID-19” when talking to your IEP team about making up services.
3. Stay Current on Special Education

Resources on Compensatory Education

Wrightslaw Website

Article Pete Wright wrote on compensatory education

Webinar with 4 attorneys discussing special education

Pete Wright’s slides from above webinar

How Parents Can Overcome Roadblocks to Compensatory Education
3. Stay Current on Special Education

More from Wrightslaw website

Wrightslaw Website

How to Prepare for IEP Meetings, Provide Information and Share Concerns

How will I know if my child is making progress?

Check out Wrightslaw’s IEP Pop-Up Tool covering present levels, goals and services, measuring progress and providing accommodations
3. Stay Current on Special Education

New provisions in 2020 – link to legal updates

See the updates for all provisions, but what you really need to know:

• IEPs will now have to describe how special education and related services will be provided during emergency conditions, including epidemic, fire and many other situations.
3. Stay Current on Special Education

Special Education Legal Updates

Some places you can look for legal information:

• School & College Legal Services of California legal updates
• Wrightslaw Special Education Law and Advocacy
• Disability Rights California
3. Stay Current on Special Education

Resources on Distance Learning

Community Alliance for Special Education: Covid-19 Guidance Memo

COVID-19 and K-12 Students with Disabilities: A Second-Legal Look

www.matrixparents.org
Skills and Strategies 4: Try to Stay Organized

Emails, more emails, and zoom meetings!
4. Try to Stay Organized

- Keep an IEP binder or folder on your computer for documents, assessments, and important school records.
- If you don’t have these documents, ask the school to provide them, even during distance learning.
- Put your questions, concerns and requests in writing (email is ok, but keep your emails).
- Keep a phone log.
- The Matrix IEP Toolkit is on the website.
Skills and Strategies 5:
Clear and Compassionate Communication is Important

Do You Hear Me Now?
5: Clear and Compassionate Communication is Important

• Everyone needs to try and be flexible, compassionate and patient during this difficult time.

• Acknowledge and process your emotions.

• Focus on your child’s needs and your own.

• Show respect and expect it from others.

• Try to avoid making people feel defensive.

• Be grateful and assume your IEP team is doing the best they can!
5: Clear and Compassionate Communication is Important

Tips for Good Communication at a Meeting:

- Set ground rules, these will be different for video conferences.
- Having an agenda can help.
- Clarify time constraints.
- Listen & ask questions.
- Use and ask for facts and data rather than opinions.
5: Clear and Compassionate Communication is Important

## 5: Clear and Compassionate Communication is Important

### Virtual IEP Meetings: Technology Tips for All Participants

<p>| | |</p>
<table>
<thead>
<tr>
<th></th>
<th></th>
</tr>
</thead>
<tbody>
<tr>
<td>![Clock]</td>
<td>Be patient—technology may not work as intended. Assume that everyone is doing their best.</td>
</tr>
<tr>
<td>![Battery]</td>
<td>Test out technology in advance, and make sure all devices are charged.</td>
</tr>
<tr>
<td>![Phone]</td>
<td>Have a back-up plan ready in the event technology issues arise.</td>
</tr>
<tr>
<td>![Clock]</td>
<td>Join the meeting about 10–15 minutes in advance to troubleshoot any technology issues.</td>
</tr>
<tr>
<td>![Speaker]</td>
<td>Actively listen and participate in the meeting.</td>
</tr>
<tr>
<td>![Table]</td>
<td>Set up a meeting space that reduces potential distractions to minimize background noise as much as possible.</td>
</tr>
<tr>
<td>![Lock]</td>
<td>Ensure the security of confidential information before, during, and after the meeting.</td>
</tr>
<tr>
<td>![Laptop]</td>
<td>Turn off any notifications on your computer—they may show up on others’ screens.</td>
</tr>
<tr>
<td>![Headphones]</td>
<td>Use headphones or a headset with built-in microphone, when possible.</td>
</tr>
</tbody>
</table>
5: Clear and Compassionate Communication is Important

Tips for Good Communication at a Meeting:

• Be appreciative, acknowledge the efforts of others.

• Use humor.

• Repeat, reflect and rephrase for clarification.

• Build on small agreements.
5: Clear and Compassionate Communication is Important

Tips for written communication:

Letters or emails should:

• Be sent to person who can make a change
• Focus on only one or two issues
• Be solution vs. blame oriented
• Be no longer than 1 page (less is more!)
• Set a deadline if a reply is requested
• Give your contact information
Skills and Strategies 6: Perspective (Yours and Others)

It’s Nice When We Acknowledge Each Other’s Thoughts
6. Perspective (Yours and Others)

- Acknowledge your fears & concerns as a parent.
- Empathize with the challenges teachers & administrators face – this is an unprecedented time!
- Find common goals & build upon small agreements.
- Don’t rehash the past. Focus on what can be done today.
- Keep an open mind.
- Be grateful!
Skills and Strategies 7: Solving Problems Creatively

Practice
Flexibility!
7. Solving Problems Creatively

• Understand the difference between *position* & an *interest*:
  • A fixed position is one way to solve a problem.
  • An interest can be met in several ways.

• Be willing to brainstorm.

• Ask questions to help others to be more specific.

• Call Matrix for help with this.
7. Solving Problems Creatively

- Focus on what can be done now.
- Document what services your child is getting… or not getting.
- Observe/record whether your child is accessing distance learning.
- To the extent you can, monitor progress; ask for help from teachers/specialists.
- Document your child’s progress if distance learning continues; data is important.
- Collaborate/communicate with your IEP team – reach out to them!
7. Solving Problems Creatively

Tips for Resolving Disagreements:

- Solve disagreements as close to source as possible.
- Communicate your concerns clearly.
- Be calm and factual.
- Document your process.
- Utilize administrative hierarchy.
- Work to preserve good relationships.
7. Solving Problems Creatively

When you disagree:

- Disagree without being disagreeable.
- Separate the person from the problem.
- Realize no one has all the answers.
- Make sure your facts are correct.
- Choose your battles.
- SELPA and ADR are still available during school closures.
- Call Matrix for help.
Skills and Strategies 8:
Practice Self-Care

Self-Care is not Selfish!
8. Practice Self-Care

- Try to get rest, exercise, and healthy food.
- School is not everything! Consider family harmony and well-being.
- Add enjoyable activities to you and your child’s schedules when possible.
- Connect with people who give you encouragement & hope.
- Consider a class in Mindfulness-Based Stress Reduction (MBSR) or other stress relief approaches.
- Try not to feel guilty!
8. Practice Self-Care

- Be gentle with yourself.
- Practice asking for help when you need it.
- Try not to give in to resentment or frustration, but everyone does sometimes.
- Try to make self-care a habit.
- Look for Special Express emails from Matrix on stress reduction.
- We are role models for our children in how we manage stress, growth, and change.
Apply what you’ve learned

I’ll try that.

Me too!

TURN & TALK

www.matrixparents.org
Collaboration = Success

Parents

Service providers

Special Ed Teacher

School Psychologist

School Administrator

Child Expert

www.matrixparents.org
Collaboration = Success

• Parents & Professionals should be partners.
• Maintain good relationships in this difficult time.
• Work together.
• Share goals.
• Recognize that roles have changed.
• Draw on everyone’s different skills and strengths.
• Solve problems together.
Skills Checklist

What have you learned?

• Is there a skill you hope to improve?
• Do you need more resources?
• Do you need more support?

What did you think about this presentation?
Q & A

The ability to ask the right question is the single most important skill!
Matrix Parent Network & Resource Center

We are Parent Advisors not Attorneys or Advocates

We do not give legal advice or advise a course of action. We provide support and information to help parents learn about their rights and options, find referrals and resources and help parents become the best advocate they can be for their child,
Matrix Parent Network & Resource Center

Federal Parent Training & Information Center
designated by the Office of Special Education, US Department of Education, serving families of children birth through 26 in Marin, Napa, Sonoma & Solano counties

California Family Resource Center
designated by CA Department of Developmental Services,
serving families of infants and toddlers

California Family Empowerment Center
designated by CA Department of Education
serving the underserved in Solano and Sonoma Counties

www.matrixparents.org
This workshop was developed in part under a grant from the US Department of Education, the Office of Special Education and the California Department of Education.

Matrix is grateful for the Federal and State funding it receives, but it’s not enough. We rely on other grants and on donations from people like you!
Please consider supporting Matrix in any way you can!

Thank you.
